Piarom / Mariami

Standard Class

Our Standard class of dates consists of the majority of the harvest and is available at a competitive price. The difference between Standard and Jumbo dates is primarily their size. However, hygiene and sorting standards are strictly maintained to ensure quality. Like the Jumbo class, the moisture level of Standard dates can vary based on harvest timing, growing location, and irrigation.

Color	Black to brown
Size	Less than 4 cm
Fruit Count	Less than 130 dates per kg
Moisture	12 - 18 %

Piarom / Mariami

Grade B

Introducing our Grade B Mariami dates, a delicious and versatile option for those looking for a cost-effective option. While they may not have the same visual appeal as our standard and jumbo grades, they still offer the same great taste and nutritional benefits. The color and skin of Grade B dates may vary from black to light brown or yellow, and the rind may not be fully attached to the texture. These dates are perfectly suitable for direct consumption or for use in a variety of processed food products.

Color	Black to Yellow
Size	Variable
Fruit Count	Variable

MEDJOOOL

Jumbo Class

Experience the finest in dates with our Jumbo class of Medjool Dates. These are the largest and most desirable dates of each harvest year, hand-selected for their premium quality. Although quality, quantity, and average size may vary from year to year, you can be assured of a delightful experience with every bite. The moisture level may depend on the time of harvest, growing location, and irrigation.

General Product Description

Medjool dates are the fruit of the Medjool cultivar of date palm trees, scientifically known as Phoenix dactylifera. Medjool dates are often called the king of dates, due to their global availability, and are also the soft variety of dates, as compared to semi-dry or dry varieties. Dates are usually elongated in shape, up to 7 cm long and 3 cm wide, and often have a wrinkled or dehydrated appearance. If you are looking for knowing more about Medjool date , Dnapp is your best choice.
